Dear Yavapai County Centennial Committee:

The Beaver Creek community in Yavapai County is comprised of the communities of Rimrock, McGuireville, and Lake Montezuma. Being an unincorporated area, the Beaver Creek Regional Council (BCRC) is a non-profit corporation organized for the benefit of the Beaver Creek communities.

The BCRC has actively engaged in participating in the Arizona Centennial celebrations by forming the Beaver Creek Centennial Committee and is a project partner in the official state legacy project, *Echoes from the Verde Confluence*, preserving the rich history of the Lower Verde through digital storytelling.

The Beaver Creek Elementary School is currently erecting a new school building which will include not only classroom facilities but also multi-purpose community space and the community library. The school has a rich history itself as the first school in Beaver Creek was established in 1879.

The BCRC is in full support of a centennial tablet being placed at the Beaver Creek Elementary School as the school is a historic symbol and a focal point of our community.

Sincerely,

Kala Pearson, president
Beaver Creek Regional Council
